

Evenio Oy - Event Concept Creation

With years of experience, we know how to build events and meetings. Creating a budget plan that is flexible, accounts for your budget, and meets your education and regulatory needs is our strength. Our Concept Creation Service is all about understanding clients needs and consulting best practices. As a result, we create a cost estimate.

Cost estimate typically includes:

- In-person venue and accommodation costs (in-person only)
- digital venue platform & application costs (We use CVent)
- Invitation and Registration handling (We use CVent)
- In-person logistics costs (Global Travel Agency, Ground Services)
- Hosting services (Platform, Live Stream)
- Visual Design and Meeting Material Production
- Onsite Support (Meet & Greet, digital attendee support, Service desk presence)
- Reporting Services
