This half-day-trip starts from Helsinki Market Square. We cruise towards the old fisherman's estate on the lovely Island of Pentala. On the way we pass by sights such as the famous Unesco World Heritage site - the Fortress of Suomenlinna, charming yacht clubs, beautiful summer restaurants, cottages and villas scattered around the archipelago.

Upon arriving to Pentala, we get acquainted with the Archipelago Museum - an old fisherman's estate that has been turned into an open area museum. A special Guided Tour to "Gurli's House" is included. This home museum represents the life of the last local person living in the house - the fisherman's widow Gurli Nyholm in 1986.

On the trip back traditional Finnish Salmon Soup and Coffee is served whilst we enjoy the beautiful nature of our Archipelago
